

Protect you against the coronavirus

Limit the spread of the virus

Keep the minimum distance of at least 1,5 metre

Respect the prevention measures applicable within your company

Use your own material if possible and if not, clean up everything before use

Wash your hands regularly with soap and water

Whenever you sneeze: cover up your mouth and nose with a paper tissue or cough in your elbow

Throw used tissues away in a properly closed bin

Stay at home when feeling ill and contact your regular doctor
